

PopCharge Auto

Automotive USB Charger with 1 Port

Part No.: **101714**

Converts a cigarette lighter socket into a USB power source.

The Manhattan PopCharge Auto is a charging adapter that uses a vehicle's auxiliary power port to keep USB devices charged and ready while on the road. It features a single USB port capable of charging tablets, smartphones, digital cameras, music players and more.

Portable Power with Protection

The PopCharge Auto has a built-in surge protection system that guards connected equipment from unexpected vehicle power fluctuations. If input voltage, internal charger temperatures or vehicle battery power get too high, it automatically shuts down to help protect your connected device from damage.

Provides Power Where It's Needed

Easy to install, it fits most vehicle auxiliary power ports and has spring-loaded contacts to ensure a good, reliable connection.

Features:

- Adapter for charging tablets, mobile phones and other portable devices
- Fits most standard automotive power ports
- Built-in circuit and surge protection
- Features a single 5V USB port
- Lifetime Warranty

Specifications:
